*I am a 21-year-old aspiring Data Engineering student who seeks a job as a Data Scientist/Data Engineer.*

## Introduction

---

I am studying on the third year of the Bachelor's degree in Data Engineering at Gdańsk University of Technology.

I am seeking a job to work part-time or remotely.

## Experience

---

### Data Modeling Intern

ERGO HESTIA

*Sopot*

*April 2019 - Present*

- creating and maintaining Shiny applications / dashboards
- writing automation scripts in R and Python
- improving code performance and quality
- performing data mining activities

### Project-Based Internship - fuzzy address matching

BEST SA

*Gdynia*

*July 2018 - November 2018*

- analysing Polish address data with string distance metrics
- building a statistical tool that enhances their quality

## Education

---

### Data Engineering

GDAŃSK UNIVERSITY OF TECHNOLOGY

*Gdańsk*

*October 2017 - February 2021*

- Bachelor of Engineering (B. Eng.)
- Faculty of Electronics, Telecommunications and Informatics
- Faculty of Management and Economics

### Biochemical Profile

STEFAN ŻEROMSKI HIGH SCHOOL NO. 1 IN EŁK

*Ełk*

*September 2014 - May 2017*

## Skills

---

- C1 Advanced CEFR Cambridge English Qualifications
- fluency in R and creating Shiny applications
- general knowledge of C/C++/Rcpp, Java, Scala, Python, and SQL
- working knowledge of JavaScript, HTML, CSS, Bootstrap, and Git
- vast knowledge of statistical and mathematical modeling methods
- experience in using machine and deep learning algorithms
- experience in modeling databases and data warehouses
- experience in developing data pipelines and ETL/ELT processes
- experience in using Hadoop and its ecosystem's tools

## About me

---

I am a big fan of Manchester City Football Club and an Anglophile. In my free time I learn Spanish, and read articles about data engineering. I also offer English tutor services.
